# INTRODUCTORY.

---

We present to the citizens of Bloomington our fifth Directory, and believe it will be found far superior to any former publication, both in typographical work and general accuracy; it has been compiled with great care and at a large expense, and we trust on examination, it will be found all we claim. This Directory contains the names of **6,900** persons, most of whom are males over the age of twenty-one; taking the usual ratio of  $3\frac{1}{2}$  to each name, would give us a total of **24,360** inhabitants, an increase of **1,180** persons since our last publication.

The rapid and steady increase of the population of Bloomington has resulted from various sources. The beautiful location of the city, on high, rolling prairie, richly ornamented with shade trees, which add greatly to the beauty of our streets, and no more fitting name could be given it than the "Evergreen City."

The surrounding country is the richest agricultural region of the State, and of unequalled fertility, and is settled by persons of more than the average intelligence; doubtless attracted by the extra facilities afforded for the education of their families. In point of health, Bloomington will compare with any city in the Country, its climate being free from all miasmatic diseases. Manufacturing is carried on to a considerable degree, amongst which may be mentioned, Bloomington Brush and Trunk Co.; Eagle Machine Works; Union Foundry and Machine Shops; Illinois Central Mill Works; Paper Mill, and Chair Factory, all of which proves the growing importance of the city.

Emigration is cordially invited. The Board of Trade, located in the New Post Office Building, make it their especial business to furnish all necessary information to new comers and parties who contemplate settling in our midst.

Trusting that due allowance may be made for any errors that may unavoidably appear in this work.

Yours respectfully,

DAVID B. GOULD.

# INTRODUCTORY

The following is a list of the names of the persons who have been elected to the office of the President of the United States, from the year 1789 to the present time. The names are given in alphabetical order, and the year of election is given in parentheses. The names are given in the order in which they were elected, and the year of election is given in parentheses.

George Washington (1789)  
John Adams (1797)  
Thomas Jefferson (1801)  
James Madison (1809)  
James Monroe (1817)  
John Quincy Adams (1825)  
Andrew Jackson (1829)  
Martin Van Buren (1837)  
William Henry Harrison (1841)  
Francis Pickens (1857)  
Abraham Lincoln (1861)  
Andrew Johnson (1865)  
Ulysses S. Grant (1869)  
Rutherford B. Hayes (1877)  
James A. Garfield (1881)  
Chester A. Arthur (1881)  
Grover Cleveland (1893)  
Benjamin Harrison (1889)  
William McKinley (1897)  
Theodore Roosevelt (1901)  
William Howard Taft (1909)  
Woodrow Wilson (1913)

## DIRECTORY BORROWERS.

*Many are the complaints from those who regularly patronize the directory that they are bored so much by borrowers, not the stranger or private citizen who steps into an office, looks at the directory and goes out, but merchants, business men, who continually need it for reference yet are too close fisted to buy one. These are the individuals who carry off your directory "just for a few minutes" which generally means A FEW DAYS, unless you send after it before, then you have scarcely "housed" it when some one else annoys you with the question "please lend me your directory a few minutes," perhaps you won't see it again for a week, yet those same borrowers will tell the directory canvasser that he has no use for a directory, he "knows everybody" and vice versa "everybody knows him"—too well perhaps.*

J. F. MELCHER & CO.,  
***STAIR BUILDERS!***

No. 411 North East Street,  
**BLOOMINGTON, ILL.**

Having been engaged in Stair Building for a number of years, I am prepared to do all kinds of Stair Work, no matter how complicated. Having put steam power into my shop, I can guarantee promptness as well as correctness in filling orders. Will do Stair Building in any part of the State at Bloomington or Chicago prices, and put up the work when freight, board and expenses are paid. Will make rails for stairs complete, and warrant them to fit. All that is necessary is to send the number of risers, width of risers, and width of step on horse or pitch-board, diameter of cylinder at top of stairs, and length of headway and return to wall. Also, whether the rail is to be on the right hand or on the left hand of the stairs as you go up. Also, whether the stairs are geometrical, and how many steps, and fractions of steps, (winders) there are inside the diameter line of the cylinder, and how wide on pitchboard, kind of rail, newel post and balusters. Ten, fifteen and twenty per cent. discount off the above prices to builders, where quick returns are made.

**WHOLESALE.**

We have on hand a full stock of fancy, full veneered, sunk panel Newel Posts, as can be found any place. Brackets and Balusters, and can build stairs by any rule; but we use a rule of our own invention that gives the geometrical twist by one tangent line, in the rule line; the only perfect rule there is; known only to ourselves. Astronomers don't know it, if they did they could measure the distance to the fixed stars, but we are not going to build stairs that way only as a man has a mind to build. Good work guaranteed.
